Miskolc, 2022

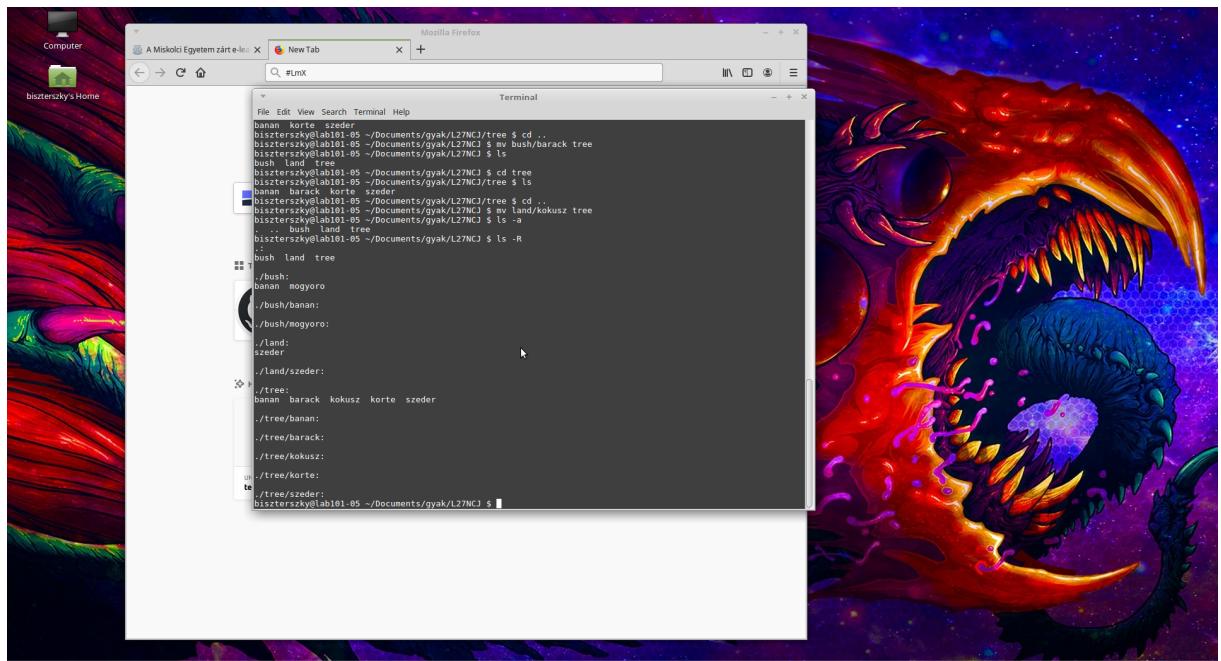

1. Mappák létrehozása

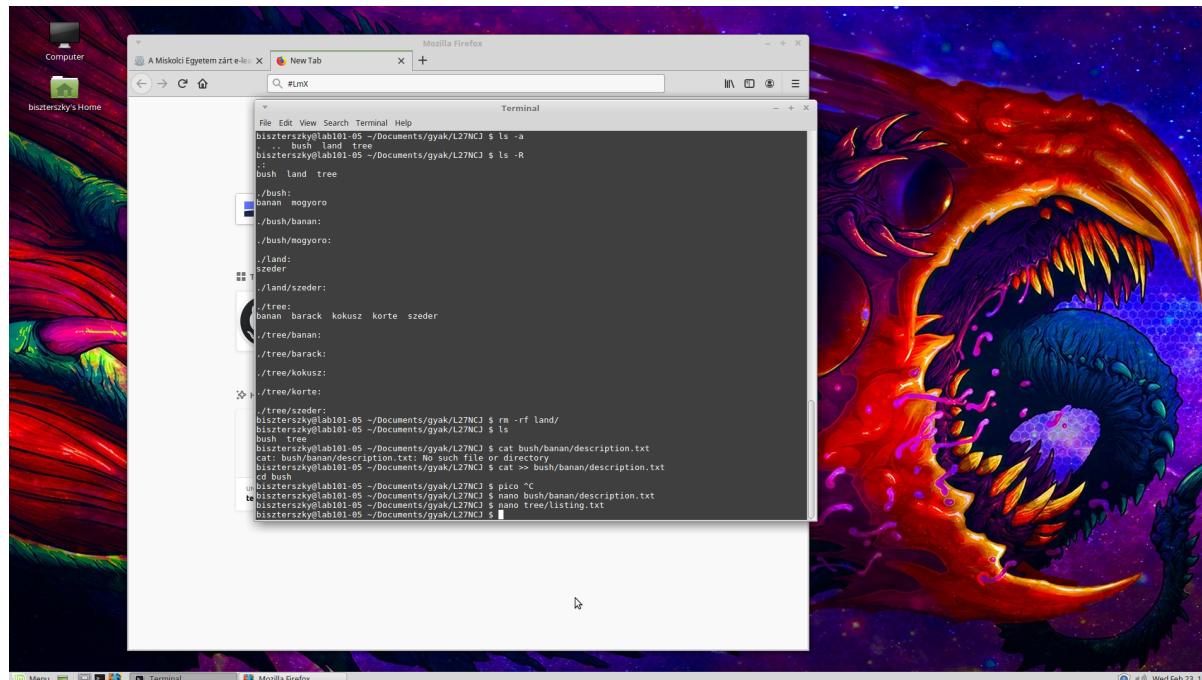

2. Másolás

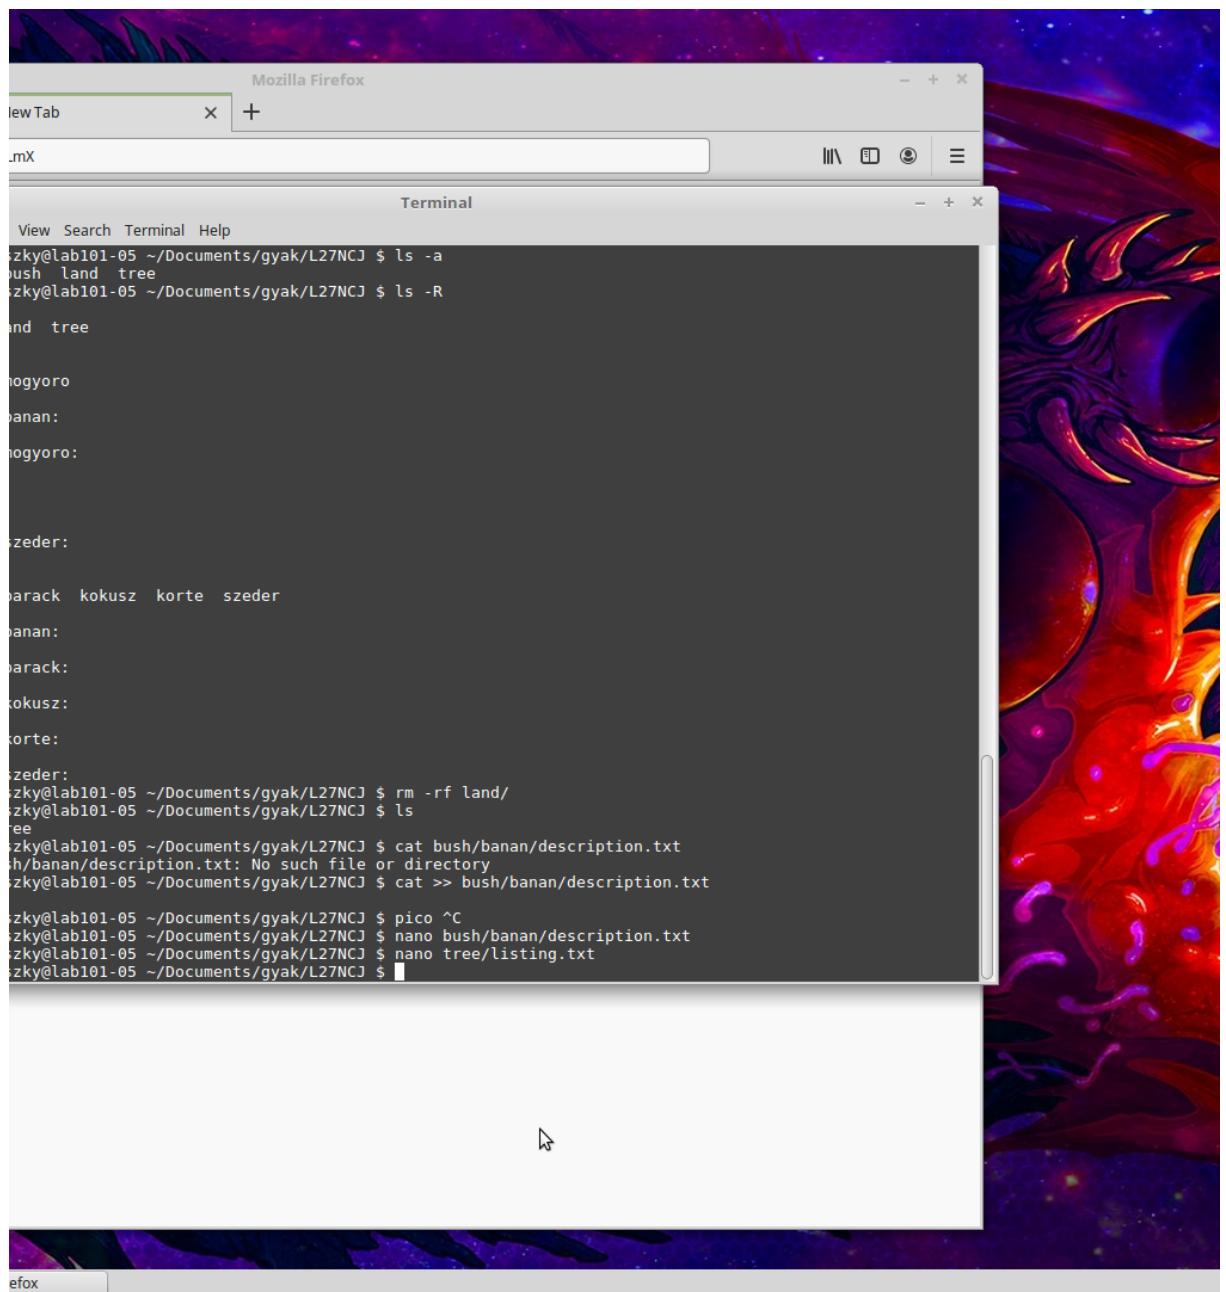

3. Mozgatás

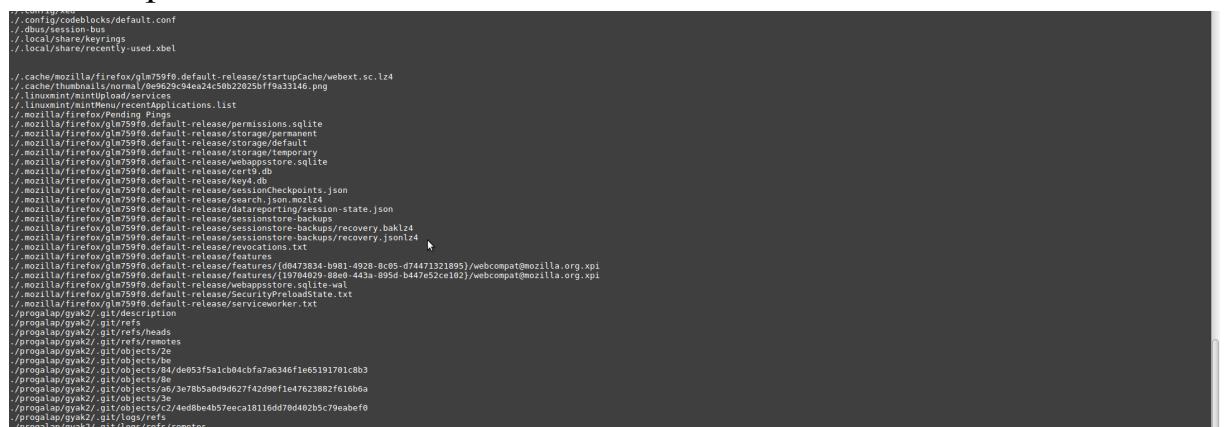

4. Törlés a rm parancsal

5. File írás

6. Listázás parancs

7. Keresés

A screenshot of a desktop environment. On the left, there's a file browser window titled "Computer" showing "biszterszky's Home". In the center, a terminal window is open with the command `ls -l` being run, displaying a directory tree. To the right of the terminal, a Stack Exchange search results page for "How do you view file permissions?" is shown. The page has 4 answers and 2,019 views. Below the search results, there's a sidebar with user profiles for "Python Software Engineer, Canonical", "Senior Symfony/PHP Engineer, Canonical", and "Software Engineer - Python, Canonical". The background of the desktop is a vibrant, colorful dragon illustration.

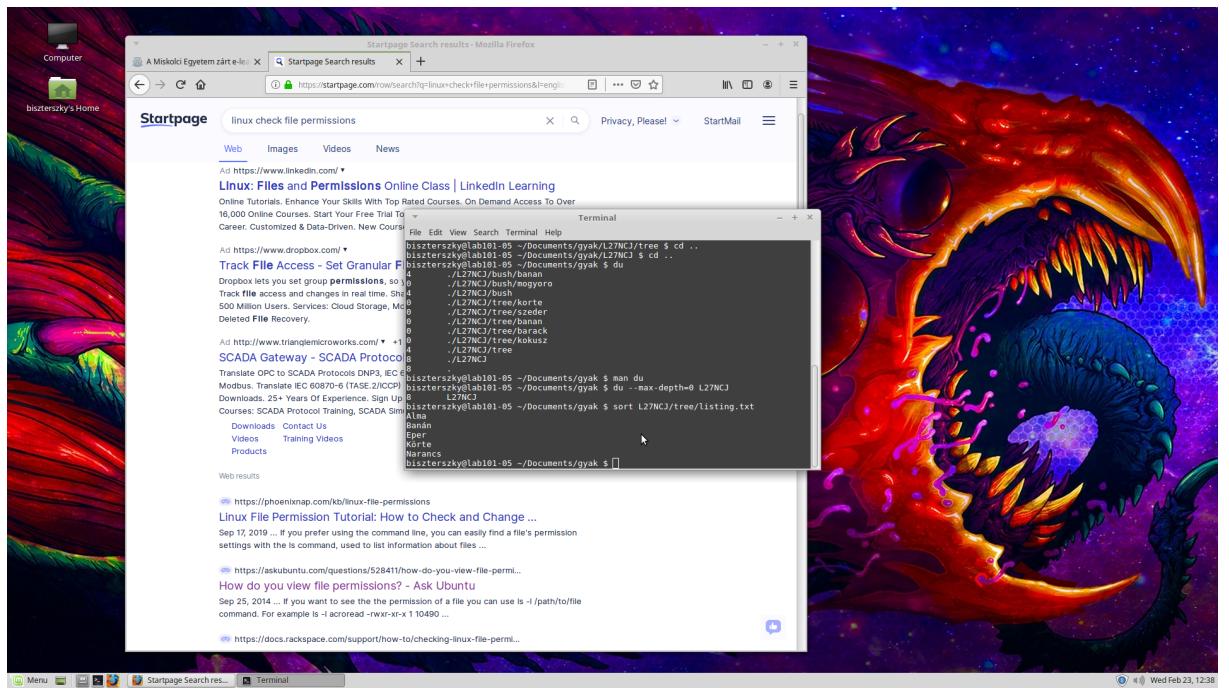

8. Jogosultság adás

A screenshot of a desktop environment. On the left, a terminal window shows the command `ls -l` outputting a directory tree. In the center, a LinkedIn Learning course page for "Linux: Files and Permissions Online Class" is displayed. The course has 16,000 online courses and starts with a free trial. The background of the desktop is a vibrant, colorful dragon illustration.

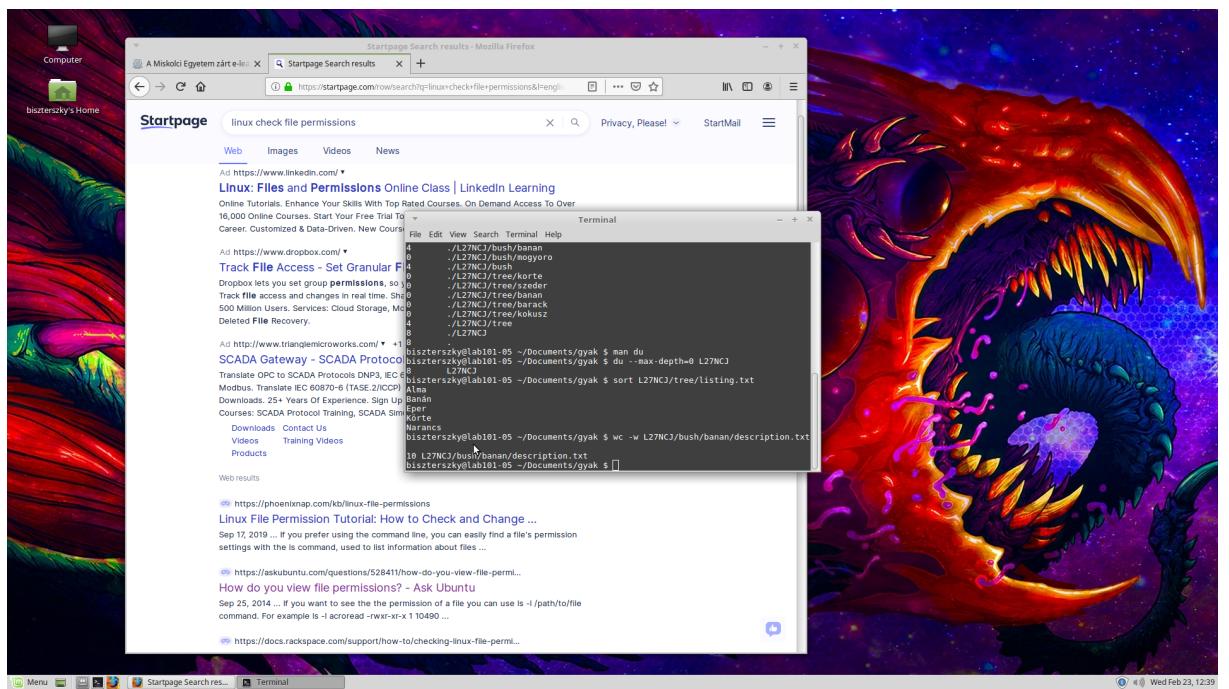

9. Mappa mérete

A screenshot of a desktop environment. On the left, a terminal window shows the command `ls -l` outputting a directory tree. In the center, a Startpage search results page for "linux check file permissions" is displayed. The search results include links to various resources like LinkedIn Learning, Dropbox, and AskUbuntu. The background of the desktop is a vibrant, colorful dragon illustration.

10. Rendezés, sort parancs
